First Call

Your journey starts here as we explore your unique trading goals and introduce how QCS can support your success.

Highlights

Discover your specific trading challenges and aspirations.

Learn about tailored QCS solutions matching your needs.

Initiate a partnership based on understanding and

Book our 'Requirements and Scope' meeting.

Estimate & Go/No Go

We provide a comprehensive estimate for the project, leading to a decisive moment for partnership and project commencement.

Highlights

Present detailed cost estimate aligned with your project scope.

Discuss timelines, milestones, and payment terms.

Joint decisionmaking to proceed with the proposed solution.

Agree on Escrow funding.

Development & Feedback

Iteratively develop the solution based on the defined requirements and scope. Regularly getting your feedback to ensure you get the value you expect.

Highlights

Initiate the custom solution development phase with regular progress updates.

Provide incremental versions for review and feedback to ensure alignment.

Implement feedback to refine and perfect the solution iteratively.

Sign off on completed solution, release (final) Escrow funding.

Requirements and Scope

Deepen our collaboration as we outline your specific needs and define the project's scope to ensure targeted, effective solutions.

Highlights

Detail your trading strategy requirements and operational needs.

Clarify project objectives, deliverables, and timelines.

Establish a clear, mutual understanding of the project scope and outcomes. Book our 'Estimate & Go/No Go' meeting.

Escrow Funding

Solidify your commitment and start the project by depositing funds into our pre-established escrow account.

Highlights

Deposit your project funds into the existing escrow account.

Ensure financial security and commitment from both sides.

Activation of project development upon successful fund deposit.

Setup regular review meetings for the project duration.
